Volume 18 1992 Table of Contents

No. 1 Photoinactivation of Viruses and Cells for Medical Applications

pp. 1–166

L. CORASH and C.V. HANSON: Guest Editorial: Photoinactivation of Viruses and Cells for Medical Applications 3

C.V. HANSON: Photochemical Inactivation of Viruses with Psoralens: An Overview 7

P. MOREL, L. LIN, G. WIESEHAHN, and L. CORASH: Photochemical Inactivation of Viruses and Bacteriophage in Plasma and Plasma Fractions 27

G. MOROFF, S. WAGNER, L. BENADE, and R.Y. DODD: Factors Influencing Virus Inactivation and Retention of Platelet Properties Following Treatment with Aminomethyltrimethylpsoralen and Ultraviolet A Light 43

L. CORASH, L. LIN, and G. WIESEHAN: Use of 8-Methoxypsoralen and Long Wavelength Ultraviolet Radiation for Decontamination of Platelet Concentrates 57

J.L. MATTHEWS, F. SOGANDARES-BERNAL, M. JUDY, K. GULLIYA, J. NEWMAN, T. CHANH, and A. MARENGO-ROWE: Inactivation of Viruses with Photoactive Compounds 75

R.S. STERN: Risks of Cancer Associated with Long-Term Exposure to PUVA in Humans: Current Status–1991 91

K.N. PRODOUZ, C.D. LYTLE, R.F. BONNER, and J.C. FRATANTONI: Effects of Two Viral Inactivation Methods on Platelets: Laser-UV Radiation and Merocyanine 540-Mediated Photoinactivation 101

F. SIEBER, J.M. O'BRIEN, and D.K. GAFFNEY: Merocyanine-Sensitized Photoinactivation of Enveloped Viruses 117

J. NORTH, H. NEYNDORFF, D. KING, and J.G. LEVY: Viral Inactivation in Blood and Red Cell Concentrates with Benzoporphyrin Derivative 129

B. HOROWITZ, S. RYWKIN, H. MARGOLIS-NUNNO, B. WILLIAMS, N. GEACINTOV, A.M. PRINCE, D. PASCUAL, G. RAGNO, C.R. VALERI, and T. HUIMA-BYRON: Inactivation of Viruses in Red Cell and Platelet Concentrates with Aluminum Phthalocyanine (AlPc) Sulfonates 141

H.J. DEEG, K. ERICKSON, R. STORB, and K.M. SULLIVAN: Photoinactivation of Lymphohemopoietic Cells: Studies in Transfusion Medicine and Bone Marrow Transplantation 151

No. 2 Free Communications

pp. 167–358

B. Houwen: Review: Reticulocyte Maturation 167

B.S. Baliga, K. Isoyama, G. Longmore, Y.-M. Yang, A.K. Shah, and V.N. Mankad: A Simple Method for Hemoglobin Measurement in Cell Culture System 187
L.S. Lessin: Commentary 194

T. Shirota and M. Tavassoli: Alterations of Bone Marrow Sinus Endothelium Induced by Ionizing Irradiation: Implications in the Homing of Intravenously Transplanted Marrow Cells 197
K. Yamazaki and T.D. Allen: Commentary: The Structure and Function of the Blood-Marrow Barrier. Early Ultrastructural Changes in Irradiated Bone Marrow Sinus Endothelial Cells Detected by Vascular Perfusion Fixation 215
T. Shirota and M. Tavassoli: Reply to Commentary 222

Y. Hirose and S. Konda: Microtubule Organization in Lymphoid Malignancies 225
B.H. Liwnicz: Commentary 239

K.G. Engström, B. Möller, and H.J. Meiselman: Optical Evaluation of Red Blood Cell Geometry Using Micropipette Aspiration 241
G.R. Cokelet: Commentary 258
K.G. Engström, B. Möller, and H.J. Meiselman: Reply to Commentary 262

I.T.M. Boll, C. Domeyer, and C. Bührer: Locomotion of Human Bone Marrow and Peripheral Blood Leucocytes Is Associated with Maturational Stage and Altered in Malignancy 267
H. Gruler: Commentary. 278

A. Hattori, N. Soga, M. Mito, T. Koike, and A. Shibata: Stress Platelets in Normal Individuals and Patients with Idiopathic Thrombocytopenic Purpura 281
M. Tavassoli: Commentary: A Platelet Equivalent of Stress Reticulocyte 295

C.J. Eaves, H.J. Sutherland, C. Udomsakdi, P.M. Lansdorp, S.J. Szilvassy, C.C. Fraser, R.K. Humphries, M.J. Barnett, G.L. Phillips, and A.C. Eaves: The Human Hematopoietic Stem Cell In Vitro and In Vivo 301
M. Tavassoli: Commentary: Integrated Hemopoiesis 308

L.W.M.M. Terstappen and J. Levin: Bone Marrow Differential Counts Obtains by Multidimensional Flow Cytometry 311
B.H. Davis: Commentary 331

Z. Pécsváradi, T.C. Fisher, A. Fabók, T.D. Coates, and H.J. Meiselman: Kinetics of Granulocyte Deformability Following Exposure to Chemotactic Stimuli 333
G.B. Nash: Commentary. 353
Z. Pécsváradi, T.C. Fisher, A. Fabók, T.D. Coates, and H.J. Meiselman: Reply to Commentary 357

No. 3 Platelet Storage Lesions

pp. 359–522

J.G. WHITE: Guest Editorial 359

A.P. BODE and H.T. NORRIS: The Use of Inhibitors of Platelet Activation or Protease Activity in Platelet Concentrates Stored for Transfusion 361
D.T. MILLER: Commentary 381

G.H.R. RAO: Influence of Storage on Signal Transduction Pathways and Platelet Function 383
V.G. MAHADEVAPPA: Commentary 397

G. ESCOLAR, R. MAZZARA, J.G. WHITE, R. CASTILLO, and A. ORDINAS: Contribution of Perfusion Techniques to the Evaluation of the Hemostatic Effectiveness of Platelet Concentrates 403
H.J. WEISS: Commentary: Rheologic Aspects of Platelet and Red Cell-Mediated Thrombus Formation on Subendothelium 416

S. HOLME: Effect of Additive Solutions on Platelet Biochemistry 421
J.W.N. AKKERMAN: Commentary: Platelet Energy Metabolism During Storage for Transfusion 431

J.C. FRATANTONI: Review: The Platelet Storage Lesion: Possible Role of Plasticizers?. 435
T.N. ESTEP: Commentary 441

H.M. RINDER and E.L. SNYDER: Activation of Platelet Concentrate During Preparation and Storage 445
G. MOROFF: Commentary 457

J.G. WHITE: Ultrastructural Changes in Stored Platelets 461
J.D. WENCEL-DRAKE: Commentary: Membrane Fusion Events in Human Blood Platelets 476

T.A.W. KOERNER, M.T. CUNNINGHAM, and D.-S. ZHANG: The Role of Membrane Lipid in the Platelet Storage Lesion 481
G.H.R. RAO: Commentary 498

J.N. GEORGE: Changes in Platelet Membrane Glycoproteins During Blood Bank Storage 501
H.M. RINDER and E.L. SNYDER: Commentary 512
